

## Carpet and Carpet Pad:

The carpets change so often, we have given up in the guide. Listed below are our customer favorites, but there maybe more options when you meet.

Carpet pad standard is 6lb. Upgrade is 8lb. It is whole house one charge. The carpet pad can make the level #1 carpet feel much softer if you go from the standard 6lb to the upgrade 8lb.

### NOTE:

Not all colors shown on the manufacturer's website are available especially dark colors.
